Although their topic is not new, they have presented a very clear argument in their analysis. The argument that was the strongest was They way this was laid out in their poster and the images that were used were very effective. The images and their topic sentences worked very well together. Even without words it was easy to understand. ETC ETC.

c. *Talk about something they can improve as well*

- i. Although everything was presented in a neat and clear format, improvements could have been made in their arguments.
