

Multimedia Project Part 3 : Persuasive Poster – Comic Life

Use Comic Life to make a persuasive poster for your topic.

The poster should convince the audience of your point of view (opinion/stand).

You will use :

Text (hook, thesis statement, topic sentences & a clincher [prediction/advice/now what?])

Visuals (pictures that explain your topic sentences for each of the paragraphs). These visuals work as your details and examples. Be creative!

- **Use fonts that the audience will be able to read.**
- **Use colors that are related to what you are saying.**
- **Use symbols, if they are related to what you are saying!** (for example, hearts for love, etc).

Use any function of comic life that you would like! Make sure to **SAVE** your work in **D:/ drive** (as jpeg) and **post it on Discussion Board!!**
