

## Project Part 4 : Presentations - 5 %

---

You will be doing presentations the last part of your project.

Pick **ONE** of the posters that you have made and prepare a presentation, where you will convince people of your point of view.

### ***You will need :***

1. Bristle Board (you can get this at the dollar store, usually 2 for a dollar)
2. Printed copy of your persuasive poster
3. Appropriate decorations for your poster
4. Any other things you think you will need in your poster

You will be presenting your posters, 3 people at a time, to the class. This will happen in a round-robin fashion, where your posters will be set up in different booths around the classroom and others will come to your booth for information.

The presentation time would be **10-15 minutes**.

In your presentation you will hook the people in with your fantastic and attention-grabbing openers. Talk to them about your topic and convince them. The audience at the end will be checking off the name of the person who was the most convincing and putting it into the ballot box, which I will have prepared for you. On Friday, 3 lucky winners (the people who were chosen to be the MOST convincing) will win prizes.

Presentations will be on Thursday (during classroom time) & Friday (during lab time)
