

Eh, where you from Canada?
Everybody on the left
Everybody on the right
In the front and in the back
Let 'em know where you're from

I'm from the T dot Oh
Rep it everywhere I go
Everybody from the cold
This is where we're calling home
I'm from the T dot Oh
Rep it everywhere I go
Million people at your door
This is where we're calling home

I'm from the T Dizzle Oh
Hot with the sizzle flows
Cold when the planes land in the dot oh
Home of the blocko, patois and proper
English
Rep it like it's my gang, that's why I
sing this
Bleed red and white like a Coca Cola
Classic

Some people that I know have their
couches in the plastic
Good people got blasted
So we pour a little liquor out and think
about 'em while we plastered
Real figures here, never seen an Eskimo
Front in the wrong area, - might let it
go
Yeah, I love where I'm from all 2.5
million
Sing out

I'm from the T dot Oh
Rep it everywhere I go
Everybody from the cold
This is where we're calling home
I'm from the T dot Oh
Rep it everywhere I go
Million people at your door
This is where we're calling home

I'm from the depths of Scarborough
One ways of Vaughan Road
Apartments of Flemington, shadows in
the PO
Every area reppin' the home team
My Italians hold me down, Africans
same thing
Portugese get it in, Filipinos rock with
me
Nuff Trinis and Yardees holding the
block with me

So many faces like we the Winter
Olympics
Greatest city ever, after dark you
better think quick
Club district, parking lot politicing
We got hotter women than any city
admitting
We the number 1, check out the figures
we gettin'
No apologies and never quitting

I'm from the T dot Oh
Rep it everywhere I go
Everybody from the cold
This is where we're calling home
I'm from the T dot Oh
Rep it everywhere I go
Million people at your door
This is where we're calling home

Regent, Jungle, Vaughan Road, Malvern
Chester Lee, Rexdale, let the fire burn
John Garland, Flemo, stand up
If you from Toronto, let me see you put
a hand up
Born alone die alone, but I'm never on
my own
Don't watch no face, stay true is what I
was shown
I'm a product of OG's and social
workers

3 years of University and Lick's
Burgers
Harlem Underground, black owned
businesses
Big It Up Hats, and immigrants from
long distances
Working class people and some others
with some privileges
Any way you look at it we seeing past
differences

Yo, I am multiculture
Hand on my ear listening like the
Hulkster
And all I'm hearing is we the greatest
around
To the grave I'm a rep my town
Yeah
